

Jus CMS Publication Workflows

III. Complete Publication Entry by Central Position

Simple Workflow

Depositor	<p>central position creates an item via Full Submission</p> <p>central position releases the item</p>
System	<p>notification of scientist about the new released item</p>
Depositor	<p>scientist begs central position for modification of the item</p> <p>central position modifies the publication entry and releases the item again</p>
System	<p>notification of scientist about the anew released item</p>
